# VT25

Focusing upon durability, this multi-play surface is ideal for school and community use for a perfect landscaping playground surface and was also used in South Africa's first full size cricket field. This surface incorporates the innovative Rhino-Turf Thatch Concept with a fully integrated RootZone protection for the profiled monofilament yarn fibres, offering infill stability leading to infill splash reduction which results in less infill migration and a more uniform playing field. A SAFER system with **STRENGTH IN PERFORMANCE.**
