

## RHINO-TURF HF30

A British designed Sand Dressed system for all top educational institutes looking for a dual purpose product to meet at least FIH National standard but also suitable for recreational football.

Using the latest technology extra-long, soft, curly texturized monofilament yarn with the twice the weight of sand infill than normal sand dressed fields, ensuring no stretch or distortion on the playing surface during football games. We ensure **STRENGTH IN PERFORMANCE** all year round.
