

RHINO-TURF VT32

A British designed turf system with suitable shockpad making it the aspirational product of all professional football and hockey clubs looking for the dual turf to meet both FIFA and FIH international standards.

Using the innovative *Rhino-Turf Thatch Concept* we have a fully integrated root zone protection for the profiled monofilament yarn fibres, offering infill stability leading to infill splash reduction which results in less infill migration and a more uniform playing field. A safer system with **STRENGTH IN PERFORMANCE**.
