

RHINO-TURF VT40

A British designed turf system inspired by the professional football game. Meeting FIFA 2* international standard with suitable shockpad and great for 5-a-side football without a shockpad it is the aspirational product of all professional football clubs.

Using the innovative *Rhino-Turf Thatch Concept* we have a fully integrated root zone protection for the profiled monofilament yarn fibres, offering infill stability leading to infill splash reduction which results in less infill migration and a more uniform playing field. A safer system with **STRENGTH IN PERFORMANCE**.
